Fun Times with the New Florida Follies!

Thank you to the Production Stage Manager of The New Florida Follies, Ellen Schwartz, who is also the Line Dancing Instructor at the Center Active Aging (NE Focal Point), for a fantastic job always.

Vivian Jeffers, one of our amazing members, has been a dancer for this program for many years, and has helped to set up this amazing event! She looks beautiful in the costumes, and does an amazing job keeping out with all of the dancers! It's always fun to try the moves after the show, where the ladies come out, but, we all have a hard time keeping up. I guess we can always dream!

Special thanks to Sally Brinkworth our Social Chair, for her wonderful job getting these programs set up Follies, Evita and Chorus Line, and our trips, beautiful shows and times.

Heartfelt thanks to Toulia Amanna, one of our most generous members, and owner of Flashback Diner, located at 1450 N Federal Highway, Boca Raton 33432. The food is always plentiful, delicious, and we appreciate that she always includes to-go boxes! The memorabilia and staff are always helpful and kind. We appreciate our visits when we are lucky to see Toulia when we visit. She comes out to us with her beautiful smile and hugs, she always treats our members like family at any of her many locations. Please visit her at The Deerfield Beach Cafe, right next to the pier, at 202 NE 21st Avenue, Deerfield Beach. They have a large menu, outside waterfront seating, and a fantastic staff, always ready, willing, and able to help.

Congratulations & Best Wishes to our member Christina Fink.

Christina teaches autistic children at Deerfield Beach High School and a number of our members have worked with her students in her classroom. In addition to being a member of the GFWC Woman's Club of Deerfield Beach she is also a member of the Rotary and Kiwanis clubs.

She also served as the District 3 representative on the Deerfield Beach Education Advisory committee.

Christina has been offered and accepted a position of the United States Department of Defense Education Activity. She will be a teacher of moderate to severe learning impaired children for the military personnel stationed at the Army base in Stuttgart, Germany.

USAG Stuttgart is among the popular, active and useful US military bases in Germany. It is located in the Baden Wurttemberg province,

We will miss her and wish her the very best in this great opportunity.

Mixed Paper No Longer Recycled by Waste Management

The City of Deerfield Beach’s recyclables processor, Waste Management (WM), recently informed the City that due to the ongoing decline of market conditions and value of recycling commodities, mixed paper will no longer be accepted in the recycling stream

Mixed paper is newspaper, mail, magazines, glossy inserts, pamphlets, catalogs, print and office paper as well as school paper

Effective immediately please do not place any mixed paper in your recycling container. Instead, discard all mixed paper in your trash bins

The City’s current program-wide recycling contamination rate sits above 50%. Placing mixed paper in your recycling cart will only add to the City’s recycling contamination level. The City needs residents to help get that contamination level down

When it comes to recycling “Know before you Throw” by going to the City’s recycling program website for the latest information and remember “When in doubt, Throw it out!”

SMP INFORMATION UPDATE -- Coronavirus Scam Alert --

ISSUE: Coronavirus (COVID-19) Scam Alert Warning to Avoid Imposter Scams and Claims of Miracle Medicines

Due to heightened attention to coronavirus, now officially known as COVID-19, scam artists are attempting to take advantage of consumers.

Scammers may post, email or text to promote false information about "cases" of the disease in a person's neighborhood or promote bogus prevention medication in order to obtain personal information and money. Scammers also may ask a person to donate to coronavirus victims through a sham charity or offer "advice" about false treatments for the disease.

For the best available information regarding COVID-19, visit the CDC (Center for Disease Control) website at <https://www.cdc.gov/coronavirus/index.html>. Florida also has information available at www.floridahealth.gov.

How to avoid this scam:

- **Don't be a victim of click bait.** If you receive an email or text claiming to have news about Coronavirus, do not open it. Get accurate information about any updates from the CDC website.
- **Watch for imposter emails.** Look for emails claiming to be the CDC or the World Health Organization (WHO). If you are not already subscribed to receive emails from them, you should not get one randomly.
- **Ignore online offers for vaccinations or miracle treatments.** If you see ads touting prevention, treatment, or cure claims for the Coronavirus, ignore it. You won't hear about medical breakthroughs for the first time from an ad or sales pitch.
- **Perform due diligence when considering a donation.** Do not donate to any organization claiming to help those sick from the Coronavirus unless you have done your research. Any charity soliciting in Florida must be registered with FDACS (Florida Department of Agricultural and Consumer Services). Call 1-800-HELP-FLA (800-435-7352) or use their online [Check-A-Charity](#) tool to find out if a charity is properly registered.
- **Watch out for scam "investment" opportunities.** The U. S. Security and Exchange Commission (SEC) has issued an investor alert about investment frauds involving claims that a company's products or services will be used to help stop the coronavirus outbreak. Some internet promotions, including on social media, are claiming that the products or services of publicly traded companies can prevent, detect, or cure coronavirus, and that the stock of these companies will dramatically increase in value as a result. The promotions often take the form of so-called "research reports" and make predictions of a specific "target price." More information is available at https://www.sec.gov/oiea/investor-alerts-and-bulletins/ia_coronavirus.

Project: Alzheimer's Day Care Center, NE Focal Point/Center for Active Aging

Bill: HB 4039 (FY20)

Sponsor: Rep. Patricia Williams

Amount Requested: \$195,150

Agency: Department of Elder Affairs

Prior Funding: \$195,150

The Department of Active Aging provides a structured and comprehensive array of programs and services that improves the independence, community engagement and quality of life of adults, seniors and children of Deerfield Beach and northern Broward County. In 1981 the City of Deerfield Beach and the Aging and Disability Resource Center of Broward County partnered to develop the Center for Active Aging (formerly Northeast Focal Point). Over the last 39 years, the Center for Active Aging has expanded and now operates and administers an Alzheimer's and Multicultural Day Care Center, Center for Active Aging and a Preschool.

Highlights

The Day Care Center provides in-facility respite, caregiver training and support for individuals and groups, and case management services for families who are caring for a loved one with Alzheimer's disease and other forms of dementia, Monday through Friday 7:30 am to 5:30 pm.

- In 2019, we served 73 Alzheimer's clients and 73 primary caregivers and family members who reside in the northeast section of Broward County. The average age of the clients are 81 years old. We served 75% females and 25% males. Seventy percent of the clients are Caucasian and 30% are considered minorities.
- We provided day care services for 73 individuals with Alzheimer's disease and 73 caregivers with 31,427 hours of day care, 309 case management services, and 289 hours of caregiver training and support.
- The Alzheimer's Day Care Center provides respite services for caregivers along with mentally and physically stimulating activities for individuals with Alzheimer's disease to improve their quality of life.
- Community-based day care programs, respite/relief services, and caregiver training and support programs are the most cost-effective way to support families caring for loved ones with Alzheimer's disease and delays premature institutionalization.
- Long-term care facilities focusing on memory care cost over \$80,000 per person per year, which makes day care services the most cost-effective way to fulfill the needs of both the clients and the caregivers.
- Alzheimer's services provide the caregivers "peace of mind" and allows them to be able to continue to contribute to society by maintaining active employment.
